

Replacement Spares

The best value and the highest standard with "Original IMT Spare Parts"

One of the reasons for the excellent profitability of our construction machines is the high-quality component parts used in building the machines. Our experts have a thorough knowledge of the loads of the individual components and can thus dimension the parts in a diligent manner.

We want our customers to successfully work with our machines on a long-term basis.

This is why an "IMT" is made of a large number of high-quality components.

For us, high-quality means maximum wear resistance and optimum functioning, combined with easy mounting. Therefore, the original spare parts from IMT offer benefits that are well worth in the daily working routine: from easy despatch, high availability and long service life to precise fit and easy mounting.

Airline Lubricator

We offer high quality lubricators that are designed to provide adequate lubrication to compressed air tools while they are in operation. It is intended for use with all types of compressed air tools used in the construction, mining and manufacturing industries.
